Please, consider the needs of this breed. They do need real fencing and adequate exercise. They are large and powerful sighthounds. If it runs, they will chase it and if they catch it, they will more than likely kill it. Also be mindful of the typical and unexpected costs and expenses that do come with owning a giant hound. Many, unfortunately, are not prepared for the financial costs. Please do take into consideration that their size does necessitate more nutrition expense, time spent grooming and potentially large medical bills.
